

Name: _____

Date: _____

Mr. Rawson • Y8 MYP Physics

Physics 8A Calendar

Light & the EM Spectrum • to the October break

We meet **seven times** before the October break — **once** in a Week A (Wednesday) and **twice** in a Week B (Monday and Friday), so check the letter on the left of each row. **We do not have Physics on Friday 9 October, the last day of term** — that is a Week A Friday and we do not meet then, so **our last lesson is Wednesday 7 October**. Your **reflection write-up is handed in on Monday 14 September** as a formative. The **refraction investigation is the summative**: we prepare it on 23 September, carry it out on 28 September and 2 October, and it is **due on Wednesday 7 October**, our last lesson. **There is no test this half-term** — the end-of-unit test is after the October break.

(F) = **formative** — you hand it in, I give it back with comments, it does not go on your report. **(S)** = **summative** — this one counts.

Week	Mon	Tue	Wed	Thu	Fri
7 Sep A	7	8	9 L3	10	11
14 Sep B	14 L3 (F)	15	16	17	18 L4
21 Sep A	21	22	23 L5	24	25
28 Sep B	28 L6 (S)	29	30	1 Oct	2 L7 (S)
5 Oct A	5	6	7 L8	8	9 last day <i>no Physics</i>

What happens in each lesson

Lesson	Date	Time	What we do
L3	Wed 9 Sep	15:05	The law of reflection · the practical · measuring from the normal
L3 (F)	Mon 14 Sep	09:55	Finish the reflection packet · conclusions · handed in
L4	Fri 18 Sep	12:15	Refraction · change of speed at a boundary · predicting which way light bends
L5	Wed 23 Sep	15:05	Preparing the investigation · asking a question · hypothesis · variables · planning a method
L6 (S)	Mon 28 Sep	09:55	Refraction investigation · your question · hypothesis · variables · method
L7 (S)	Fri 2 Oct	12:15	Refraction investigation · results · analysis · conclusion · evaluation
L8	Wed 7 Oct	15:05	Investigation due — handed in today. Then shadows and eclipses · umbra and penumbra · why not every month
