Mr. Rawson • Y11 GCSE Physics

# Physics 11 Q Calendar

Autumn to the October break · AQA Trilogy 8464

We meet **four times a fortnight** — Monday P6, a Wednesday double, and Friday P1. The two Wednesday doubles carry the **two required practicals**. There is a **quiz on Fri 18 Sep** and the **topic test on Mon 5 Oct**, the last lesson before the break.

| Week   | Mon           | Tue | Wed           | Thu   | Fri               |
|--------|---------------|-----|---------------|-------|-------------------|
| 7 Sep  | <b>7 P6</b>   | 8   | 9             | 10    | 11                |
| 14 Sep | 14            | 15  | <b>16 LAB</b> | 17    | <b>18 QUIZ</b>    |
| 21 Sep | <b>21 P6</b>  | 22  | 23            | 24    | 25                |
| 28 Sep | 28            | 29  | <b>30 LAB</b> | 1 Oct | <b>2 P1</b>       |
| 5 Oct  | <b>5 TEST</b> | 6   | 7             | 8     | <b>9 last day</b> |

## What happens in each lesson

| Lesson     | Time        | What we do                                                                                                       |
|------------|-------------|------------------------------------------------------------------------------------------------------------------|
| Mon 7 Sep  | P6 · 50 min | Circuit symbols · series and parallel rules · charge and current, $Q = It$                                       |
| Wed 16 Sep | P3+P4 · 105 | <b>LAB RP15 — resistance.</b> Length of a wire · resistors in series and parallel · $V = IR$ · anomalous results |
| Fri 18 Sep | P1 · 55 min | <b>QUIZ Quiz</b> · I-V characteristics: ohmic conductor, filament lamp, diode                                    |
| Mon 21 Sep | P6 · 50 min | Mains electricity · ac and dc · 230 V, 50 Hz · the three wires and safety                                        |
| Wed 30 Sep | P3+P4 · 105 | <b>LAB RP16 — I-V characteristics.</b> Filament lamp, diode, resistor · thermistors and LDRs · power             |
| Fri 2 Oct  | P1 · 55 min | The National Grid · transformers · revision                                                                      |
| Mon 5 Oct  | P6 · 50 min | <b>TEST P2 Electricity topic test</b> · everything from 7 September · last lesson before the break               |

**The two required practicals** — every GCSE course has practicals you **must** do, and the exam asks about them directly: method, equipment, graph, what went wrong. This topic has two. **RP15** — resistance and the *length of a wire*, then resistors in *series* and *parallel*. **RP16** — the *I-V characteristics* of a filament lamp, a diode and a resistor. **Keep both write-ups**; they are revision material for January, not just a lesson.

**Mon 5 Oct is our last lesson, not Friday.** Fri 9 Oct is a normal school day and the last of term, but our Friday slot only falls in the other week — so the test is the last thing we do together before the break, and it comes back after it. Mini Review packets run alongside all of this: optional, self-marked, never recorded, and they cover *Year 10* rather than Electricity.
