

Name: _____

Date: _____

Mr. Rawson • Y10 GCSE Physics

Physics 10 R Calendar

Forces 1: Kinematics · to the October break · AQA Trilogy 8464

We meet **four times a fortnight** — Thursday and Friday one week, Tuesday and Thursday the next. We started this unit on **Thu 3 September**; the **Forces 1 test is Thursday 1 October** and it covers **the seven taught lessons and nothing else**. Every lesson comes back to the same 100 m race, so keep the first sheet.

One practical, on Friday 11 September. You will use a PASCO Smart Cart to make the graphs you met the day before — the trolley draws them as it moves. **The write-up is due Tuesday 15 September.**

Week	Mon	Tue	Wed	Thu	Fri
7 Sep	7	8	9	10 P1	11 P1 LAB
14 Sep	14	15 P3	16	17 P2	18
21 Sep	21	22	23	24 P1 QUIZ	25 P1
28 Sep	28	29 P3	30	1 Oct TEST	2
5 Oct	5	6	7	8 P1	9 P1 <i>last day of term</i>

What happens in each lesson

Lesson	Time	What we do	Homework due
Thu 3 Sep	<i>done</i>	100m L1, part one. Scalars and vectors · converting units	—
Thu 10 Sep	P1 · 55	L2 and L3 — graphs. Position–time graphs · distance and displacement read off the graph · then velocity–time graphs · reading the shape · what a line <i>below the axis</i> means. Bring a laptop: we set up PASCO SPARKvue for tomorrow.	—
Fri 11 Sep	P1 · 55	LAB Smart Carts — Kinematics Graphing. The cart draws yesterday’s graphs as it moves · position–time on a level track · velocity–time down a slope · measuring properly	—
Tue 15 Sep	P3 · 55	L4. Acceleration as a vector · $a = \Delta v/t$ · what a negative value means · estimating everyday accelerations	Lab write-up due HW1 due
Thu 17 Sep	P2 · 50	L5. Back to velocity–time · gradient is acceleration · <i>area beneath the line</i> is distance, by counting squares · average speed from it	—
Thu 24 Sep	P1 · 55	QUIZ L6. Uniform acceleration · $v^2 - u^2 = 2as$ · mixed motion problems	HW2 due
Fri 25 Sep	P1 · 55	L7. Review · exam-style questions · significant figures and standard form	—
Tue 29 Sep	P3 · 55	Consolidation. Lab write-ups back · we work the questions the review threw up · nothing new	HW3 due
Thu 1 Oct	P2 · 50	TEST Forces 1 test · scalars and vectors, and describing motion along a line (§6.5.1.1, §6.5.4.1) · the seven lessons above	—
Thu 8 Oct	P1 · 55	Test returned · Forces 2 opens — contact and non-contact forces, forces as vectors	—
Fri 9 Oct	P1 · 55	Forces 2 · gravity, weight and mass <i>last day of term</i>	—
