Date: _____

Mr. Rawson • Y11 GCSE Physics

Physics 11 Q Calendar

Autumn 2, to the Christmas break · AQA Trilogy 8464

We meet **three times a fortnight**: a Wednesday double and Friday P1 in one week, Monday P6 in the other. This half term we finish **P3 Particle model** and **P4 Atomic structure**, each with a topic test (**Fri 13 Nov** and **Wed 9 Dec**), revisit **2-D forces**, and begin **Waves**, which is tested after Christmas.

Week	Mon	Tue	Wed	Thu	Fri
26 Oct	26	27	**28** P3+P4 LAB	29	**30** P1
2 Nov	**2** P6	3	4	5	6
9 Nov	9	10	**11** P3+P4	12	**13** P1 TEST
16 Nov	**16** P6	17	18	19	20
23 Nov	23	24	**25** P3+P4	26	**27** P1
30 Nov	**30** P6	1 Dec	2	3	4
7 Dec	7	8	**9** P3+P4 TEST	10	**11** P1
14 Dec	**14** P6	15	**16** *last day of term*	17	18

What happens in each lesson

Lesson	Time	What we do
Wed 28 Oct	P3+P4 · 105	LAB **P3.1 Density** · $\rho = m/V$ · **RP17**: density of regular and irregular solids, and of a liquid
Fri 30 Oct	P1 · 55 min	**P3.2 States of matter** · the particle model · why solids, liquids and gases differ in density · **P3.3 Changes of state** · mass is conserved
Mon 2 Nov	P6 · 50 min	**P3.4 Internal energy** · specific heat capacity, $\Delta E = mc\Delta\theta$
Wed 11 Nov	P3+P4 · 105	**P3.5 Specific latent heat** · $E = mL$ · heating and cooling graphs · **P3.6 Gas pressure and temperature** · review
Fri 13 Nov	P1 · 55 min	TEST **P3 Particle model topic test** · the whole unit
Mon 16 Nov	P6 · 50 min	**P4 Atoms** · protons, neutrons, electrons · atomic and mass number · isotopes and ions
Wed 25 Nov	P3+P4 · 105	**Models of the atom** · plum pudding to Rutherford, Bohr and Chadwick · **radioactive decay** · alpha, beta, gamma · nuclear equations
Fri 27 Nov	P1 · 55 min	**Half-life** · the random nature of decay
Mon 30 Nov	P6 · 50 min	**Contamination and irradiation** · review
Wed 9 Dec	P3+P4 · 105	TEST **P4 Atomic structure topic test** (P3) · then **2-D forces**: resolving forces and vector diagrams (P4)
Fri 11 Dec	P1 · 55 min	**Waves begin** · transverse and longitudinal · amplitude, wavelength, frequency, period
Mon 14 Dec	P6 · 50 min	**Wave speed**, $v = f\lambda$ · last lesson before the break
