

Hexadecimal Practice 2 · singles

Four sets of sixteen. Cut the sets apart on the dashed lines first, then cut each set into its tiles.

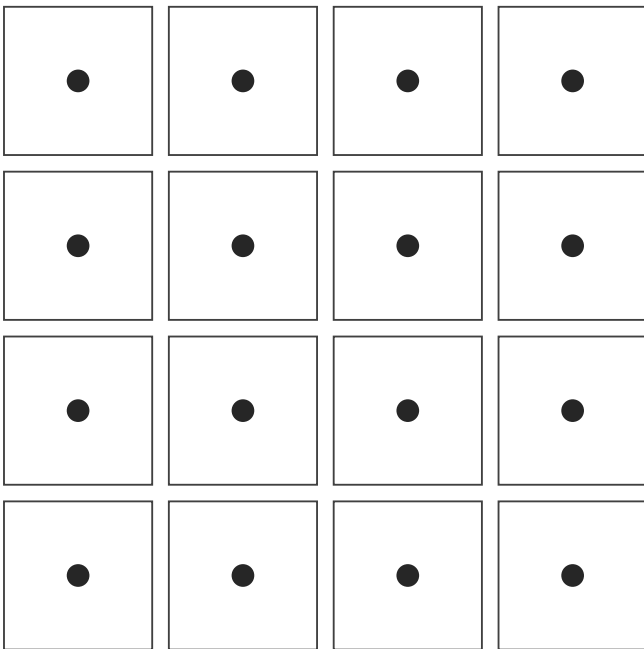

ONE SET OF 16

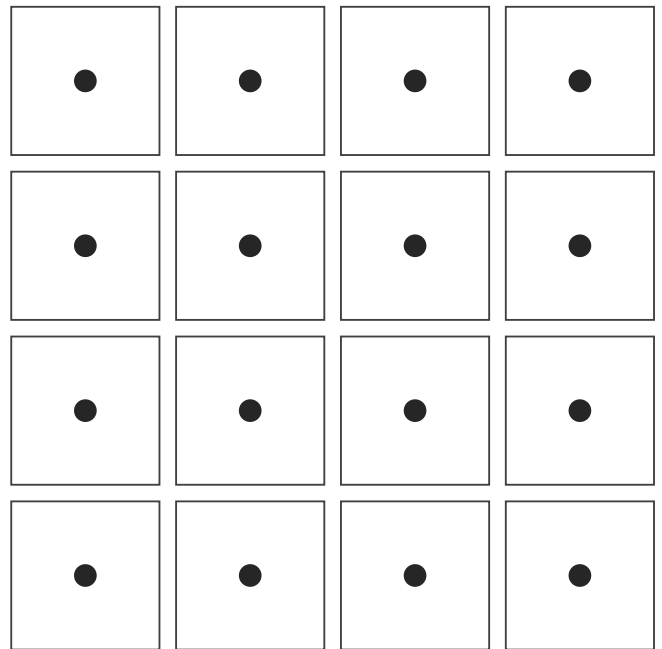

ONE SET OF 16

ONE SET OF 16

ONE SET OF 16

Each dashed block is one set of sixteen — enough for the right-hand hex digit, which never goes past 15. Sixteen of them would be a whole sixteen-card, which is exactly the point of Move 5.
