

Cut these out

With the person next to you, cut out the 19 pieces and sort them into groups that make sense to you.

Think big. Think bold. Be creative.

There is no single right answer yet. Be ready to say why you grouped them the way you did.

Treating cancer	Killing germs on hospital tools	Looking at distant galaxies
Checking for radiation leaks	Seeing a broken bone	Airport bag scanners
Getting sunburnt	Solar panels on a roof	Taking a photograph
Internet through glass cables	A TV remote control	Heat cameras at night
Heating food in a microwave	WiFi and Bluetooth	Sat nav finding your car
Radar tracking aircraft	Listening to the radio	Emergency services radios
Talking to a submarine	<i>your own idea</i>	<i>your own idea</i>
